AS Y'ALL'S PAPA, MIGHT I SUGGEST NUCLEAR BIRTH CONTROL?

VIETNAM: JOHNSON'S SHOT GUN AFFAIR

There never was a time in the history of the United States when one man, acting as a spoiled brat, has ruthlessly coerced the nation to the brink of disaster as in the case of Papa Lyndon B. Johnson. Jingoistic Mr. Johnson is a pyromaniac whose affinity for fire threatens to burn the whole world to a crisp. It appears that Papa Johnson is enjoying himself immensely playing Napoleon in South East Asia. His propensity for mass murder recalls the escapades of butchery that brought such a barbaric thrill to Mussolini's son, who spoke and wrote so glowingly of the horror on the faces of Ethiopian men, women and children who were targets of his screeching dive bomber attacks. Papa Johnson's sensual pleasure, derived from unlimited butchery, horribly approximates that of the invincible Nazi supermen who wrote so brillantly of the glorious feats of the gallant sons of the mighty fatherland. There were times during the savage conqueror's fiendish orgy of mass extermination when it seemed that his mad dog despotism would prevail. There were dark days when it seemed that might made right. There was a time when dissension was silenced. There was a time when mad dog Hitler was given a nonrestristed license and a blind and total ratification to plunder and burn to the full extent of his deranged mind. Where is he today and his superman regime that was to conquer and reign a thousand years?

Johnson is playing with fire the same as Hitler. When a pyromaniac plays with fire the entire community is endangered. Most of the American people are displaying the same type of indifference that allowed Hitler to embark on an unhampered road of self-destruction and massive devastation. No doubt that many innocent Germans were spellbound and overwrought by Hitler's depraved, but brilliant oratory of delusion. Demagogic extremists, who cunningly play on the theme of imaginary threats, can make a peace dove appear to be a raven in the eyes of chauvinistic rabble. A dynamic and suave pied piper can pipe a herd of naive and inarticulate rats to their unsurmised doom. Something has to be drastically wrong with a highly literate people who will allow conscienceless politicians to arbitrarily lead them to massive death and destruction.

The Johnson, Rusk and MacNamara axis is acting as if all the world were their private stock. They act as if the American people's lives were no more than pawns on a chess board to play and sacrifice at their own convenience. These self-styled generals are no more concerned with the loss of American lives than they would be with expendable wooden soldiers on a miniature toy battle field. Only a first magnitude fool can possibly believe Johnson when he so piously and hypocritically claims that the United States is waging its vicious war in Vietnam in the cause of freedom and democracy. What does the racist U.S.A. know about freedom and democracy? On its own territory, it holds 22 million black captives in bondage. On its own territory it holds the true and rightful heir of the land, the American Indian, in a state of captivity on miserable reservations, the first concept of the "strategic hamlet."

If the war in Vietnam is so holy and noble, why is the dehumanized Afro-American allowed the equal right to fight and die there? Afro-Americans are denied the right to participate in all

things noble in the racist U.S.A. In racist America black people are terrorized and murdered for merely seeking the enjoyment of the good and noble things of life. How can the Johnson Administration be so liberal and lavish in extending the black man the right to equally share in an enterprise as "righteous and noble" as it claims the Vietnam crusade to be? If the senseless and vicious war in Vietnam is so righteously noble why are the jingoistic old politicians not clamoring to fight there? Out of all of those old war hawks, who so passionately call for the scalps of young draft card burners, not a single one has volunteered to fight in Vietnam as a patriotic example to the youth. Since the Congress and the Senate have degenerated to a barren state of functioning merely as a rubber stamp ratification league for the Texas war lord, they could best demonstrate their unqualified support for his great crusade by presenting their persons to swell the rank of Johnson's cannon fodder legions. They couldn't make a better contribution to humanity than sacrificing their lives and leaving their Congressional and Senatorial seats to be filled with young sane men, who seek to lift humanity, rather than to destroy it.

The Johnson War in Vietnam is a shot gun affair. Whether John Q. Public likes it or not, he is being forced into an incompatible union, a wedlock with an angel of doom and death. It is shameful that an overbearing, egotistical Papa is forcing America to take unto itself a most ugly and shameful siren of destruction. The most shameful aspect of the whole Johnson mess is that the Vietnam war is a racist white man's imperialist war of escalated Ku Klux Klanism. It is a horrible conflict not to propagate freedom and justice, but to contain and negate it. It is not a war to liberate the long suffering, dehumanized and terrorized black captives of racist America, but a shameful conflict in which they are being used to reduce their colored brothers to the miserable level of the American Negro.

In Vietnam defenseless and innocent women and children are being butchered like swine. Johnson and his parrots are swooning with pride over the courage of "our" gallant American boys, who are "distinguishing themselves in the glorious tradition of the superb U. S. fighting man." What Johnson's maniac axis insists that Americans be proud of is the shame of the century. Let Americans remember the fate of Hitler and Mussolini. Let Americans remember that it is written that one must reap just what he sows. If the American people are to divest themselves of the guilt of Johnson's savage crimes in Vietnam they must de-fuse him or suffer the consequences of a horrible retribution that is sure to come to those whose silence is not golden, but criminal in the face of mad dog butchers who execute genocide in the name of racist America's sinister and twisted concept of a fabled freedom and castrated democracy.

THE JUNGLE WORLD OF RACIST AMERICA FACES RETRIBUTION

From almost every quarter and of almost every shade of the political spectrum there are those who idolize and blindly defend what they call the incredible technological achievements of racist America. In many quarters racist America is considered the ultimate criterion by which to judge modern and civilized societes. Yes, it is true that no one can logically deny the greatness of

the industrial pr... of "the American way of life." Only a fool would ...to admit that some aspects of U.S. technology are worth emulation. After rendering the devil his due, honest men must be revolted at the very thought of the vile and capricious nature of racist America's savage conduct.

There are those accommodationist souls, who harbor blind spots for racist and imperialist America. They entertain only praise and adulation for the self-appointed gendarme of world order. However, the fact remains, by virtue of its vicious conduct, that the U.S.A. is a unique, highly mechanized jungle world. What honest and respectable person can truly defend the beastly instincts and repulsive mores of racist America? The "American way of life" can morally be defended no more than the Nazi way of life under Hitler. The criterion of a civilized society must not be measured in terms of ingenious gadgets, abounding consumer goods, automation, affluence and military power. Surely these concrete things are to be desired in modern society, but they merely constitute a medium through which to express the creative drive of man's eternal quest to conquer nature. The greatest achievement of civilized society manifests itself in man's progress to master his environment and himself. In the realm of human relations, humanitarianism and social justice the U. S. A. is a dismal failure, a social jungle greatly in need of reconstruction.

The U.S.A. is infected with a psychotic type of racism that reduces its moral sensibilities to the level of a rabid dog. It is as affluent in its capacity for hypocrisy and deception as it is in its capacity for mass production. It is a racist and imperialist nation with a stone age social consciousness. It is unfit to claim full-fledged membership in the self-respecting and civilized community of the human race; least of all should it be allowed to strut and sway across the world scene proclaiming itself self-righteous master of all it surveys.

The rights of black people are less respected in racist America than those of common street dogs. Laws are enforced there to protect common street dogs from abuse by sadistical brutes. No such protection is extended to her black citizens or white humanists who demand an end to racial tyranny. Racist America is quite lavish with its deceptive propaganda portraying the Johnson Administration as a great patron of social and human rights for Afro-Americans. The apologists for the system labor long and hard in their sinister efforts to convince the world at large that the Afro-American people are making great strides toward freedom. The whole civil rights gimmick is nothing but a hoax. America must be judged by what it does rather than by what it says.

Oppressed Afro-Americans, who believe that the promised land is just around the corner, are overcome by wishful thinking and naivete. During the Reconstruction Era there was a short-lived period that ushered forth what appeared to be great strides toward freedom. Racist America emitted a ray of light, then darkness again descended. Racist terror burst forth and the brutal Ku Klux Klan routed the march of progress and forced democracy into dismal retreat. History repeats itself today. All of this fanfare about civil rights, voter rights, integration and equal employment is no more than a brutal conspiracy of deception. It is a delaying action perpetrated to confuse and demoralize the human

rights movement. It is a brash reaction necessitated by the pressure of growing violent revolt. It does not represent a change in the conscience of racist America. It is not a benefit of nonviolence and love, but a direct outgrowth of violence and threatened violence.

By feigning a new affinity for social justice and fair play, the power structure is aiming to disarm and disorganize the Afro-American freedom movement. Mercenary Uncle Tom leaders, who have lined their pockets with gold accrued from the blood and misery of the black masses, are more than willing to settle down to an unfruitful truce so as to enjoy their ill-gotten gains in an environment free of racial friction and turmoil. The fact is that if the liberation struggle continues their puppet masters will insist that they strive for leadership and the right to continue misleading. In times of turmoil, leadership is a hazardous assignment. The angry masses can push a leader further than he intends to go. If he keeps pace with the masses he will incur the wrath of the power-structure. If he takes direction from his puppet masters he courts the unbounded wrath of the people. Finding themselves in this dilemma, the Uncle Tom puppet leaders are laboring feverishly to convince the people that great victories have been won and that now is the time to relax and prepare to enjoy the spoils of struggle.

As Uncle Tom sell-out artists pat themselves on the back for a job well done and settle down to "respectable endeavors" and lavish living, what are the actual spoils of the conflict? CORE has recently stated that: "the Equal Employment Opportunities Commission, created July 2, 1965 has as yet to file a single order against a company or Union guilty of racial discrimination violations... federal registrars have been sent to only 32 of the more than 400 counties guilty of negating the Afro-American's right to register and vote... And that despite the Office of Education's guidelines for integration, 92.5% of Southern Negro children are still in segregated schools."

Almost nothing has been done to alleviate the horrible economic plight of the dehumanized black people of the Watts ghetto. Unemployment still abounds throughout the black ghettos of racist America. Police brutality still abounds and court frame-ups in racist kangaroo courts are still an order of the day. In short, only a very few of the black bourgeoisie have benefitted from Johnson's ever elusive rights and so-called War of Poverty. Cold blooded murderers of civil rights advocates still roam the social jungle of race hatred and terror in quest of new prey. In racist America it is still a shameful uncivilized fact that the black man has no human or legal rights that the white man is bound to respect.

While savage church bombers, beastly killers, mad dog rapists and maimers go free, the barbaric white power-structure and sadistical racist terrorists are framing, railroading and hounding innocent Afro-American advocates of social justice and democracy to the ends of the earth. In the social jungles of racist America, whites savages can gun down innocent women and children, priests and humanists and be given a hero's welcome, replete with bouquets of flowers and all of the paraphernialia that goes with hero worship, while an Afro-American mother of two children, Mrs. Willie Mae Mallory, is sentenced from 16 to 20 years in prison for

rescuing white savages from a justifiably angry crowd of Afro-Americans, simply because the ungrateful white vultures called the less than two hour delay a case of kidnapping. An ample indication of the white racist savage's contempt and hatred for black people is the fact that after the reversal of the sentence by the State Supreme Court, Mrs. Mallory and 4 other defendants have been reindicted, purely on the initiative of the white heat of racist vengeance. The racist Klansmen of Union County, North Carolina, are truly indicative of the mad dog nature of white supremacy Americanism. The Mallory case proves their bulldog determination and how they use the law to persecute blacks and white humanists for defiance of white supremacy codes. Murdering white racist apes, who confess their brutal crimes, are acquitted with honor in court sessions as short as 15 minutes' duration. The innocent victims in the Mallory frame-up have been hounded and persecuted since August of 1961.

The kangaroo legal system of U.S. racism is not a medium for dispensing even-handed justice but is a sadistical whipping post where uncivilized racist society many vent its vicious spleen of spite and vengeance on helpless blacks. There can be no rapport of understanding between justice-seeking blacks and white savages of this nature. Such intransigent mad dogs are totally devoid of any capacity for compassion toward dark humanity. It is not in their nature to fathom the aspirations and peaceful petitioning of black humanity in quest of human justice. Such beasts only understand force and violence. They are the most ferocious enemies of democracy and social justice in the world today. They are the ones who scream and clamor the loudest for a massive war of extermination to be waged against the Vietnamese people. They are the most vocal advocates of machine gun diplomacy in Santo Domingo. They scream for nuclear war against the Chinese people. These savage mad dogs brashly proclaim to the world that they have been divinely commissioned to disseminate democracy and Americanism to the universe. The racist and imperialist society is presided over by hell-bent madmen. Like the madmen who presided over Nazi Germany, they shall meet the horrible fate that inevitably befalls madmen; for when tyranny leaves humanity no other alternative but violent resistance it sets the stage for its own inevitable annihilation.

VIOLENCE IN THE AIR

The racist and imperialist forces are on the move throughout the world. A good portion of the revolutionary forces are in disarray. The reactionary forces' favorable position at this time can neither be attributed to their superior tactics nor to the invincibility of their power. The great tragedy of the matter is the fact that the unfavorable position of international revolutionaries today is due to an inability to maintain and work in a united front. A great segment of the liberation forces is stricken with inertia. It has lost the dynamic initiative and is regressing to a state of deterioration. The racist and imperialist forces are taking advantage of a wavering front of resistance and are moving might and main to deal a death blow to progressivism.

It has always been a highly successful trick of the world master race to divide, confuse, rout and conquer. The agents of racist U.S. imperialism are laboring feverishly in every corner of the earth. Their sinister mission is to undermine and subvert liber-

ation movements and the p[illegible] play on the naivete, the dogmatism, the [illegible]es. They deviously the greed of dubious and degenerate factions in the racism and progressive movement. What is happening on the wo[illegible]ne is no more than an escalation of the racist U.S. power-structure's subversive policy long practiced against the Afro-American freedom struggle in racist America.

The agressive villains' highly successful propaganda and subversive tactics must be studied, analyzed, counteracted and defeated. The reactionary's intentions and objectives are evil, oppressive and tyrannical. Progressives are falling prey to a method of subversion as old as Greek mythology. The villain of human rights and liberty has developed a master technique of subversion by infiltration. This is his greatest weapon in his arsenal of repressive instruments. He is using it effectively in his crusade to destroy the growing unity of the oppressed, exploited and progressive forces.

In racist America, the same as in Africa, Asia and Latin America the world's devil is upsetting the equilibrium of the freedom forces. He is buying off the leadership, creating a state of mistrust, confusion and demoralization. Through his infiltrative agents of deception he is spreading false rumors and lies designed to fragment the unity of the formidable masses. The international liquidationists serve as the provocative instruments of internal strife within the freedom movement. Their objective is to provoke revolutionaries into fighting among themselves to prevent the formation of a broad united front against the imperialist and racist devils. Because of the Afro-American's highly strategic position in the power house of world racism and imperialism great effort is being made to set him asunder from the struggle of the oppressed and dehumanized peoples of the world.

Great effort is being made to channel the Afro-American into the imperialist camp and to have him fight against his own best interests. Afro-Americans, along with the struggling peoples of Latin America, Asia and Africa, must annihilate the old guard reactionary leadership and the liquidationist agents within their ranks and intensify the struggle for freedom and social justice. Let there be no mistake about it, there can be no effective struggle without violence. The choice of weapons is not an alternative of the oppressed. Violence and deceit are the touch stone of the racist imperialist. For the brutal oppressor, violence is the natural sequence that invariably follows in the wake of fragmented resistance. Massive violence is in the air because the forces of reaction are on the move; honorable men can no more evade it than they can stop breathing.

LBJ ACCUSED OF LIP SERVICE ON CIVIL RIGHTS

HANOVER, N.H., Jan. 15 (UPI — A spokesman for the Mississippi Freedom Democratic Party said today that President Johnson "doesn't care at all about civil rights."

Mrs. Fannie Lou Hamer told a Dartmouth College audience that the Johnson Administration was paying lip service to liberals by enacting civil rights laws then not enforcing them.

She was critical of civil rights leader Dr. Martin Luther King. When asked if she believed he was going soft, she said: "I doubt if he's going soft — I'd say he has been soft."

Mrs. Hamer and the Party gained national prominence when its members appeared in Washington as replacements for the regular Mississippi congressional delegation.

IMITATION: A MARK OF SUCCESS

We lazy people, who have pressing commitments to the human rights struggle, sometimes, while in a state of near inertia, find ourselves wishing that some magic force would perform our necessary laborious tasks. Through the many long years as publisher, leg man, stockboy, newsboy, janitor and a host of other undesirable titles relative to THE CRUSADER, I have often entertained dreams of an automated operation that would completely liberate me to follow other fashionable pursuits such as unproductive idleness. At last, THE CRUSADER has reached a fantastic point wherein some copies are being produced without any effort on my part. Yes, it all has come about as the result of sheer magic, the magic of a sinister force akin to witches and curses. Trouble is, that I don't believe in magic and as lazy as I am, I prefer to think, write and produce THE CRUSADER myself despite my constant state of battle fatigue.

It has been said that imitation is the highest form of flattery. No doubt this is true, but now I must add that imitation can also be the highest form of treachery. I am willing to concede that imitation, in this case, too, is an indication of success; however, it represents the kind of flattery that I could well do without. No, friends, I didn't publish that bogus **SPECIAL OCTOBER 1965 EDITION OF THE CRUSADER**. No. If you received one in either Spanish, French or English, it was not a mirage. It was a **FORGED** and **FALSIFIED** copy, cartoon and all. It was the product of some evil design to make my exile untenable, and slyly slanted to rupture the cordial relations between the Chinese and Afro-Americans. Its anti-Russian contents appeared under the sponsorship of an unfriendly force. It was forged and fictitious and any resemblance to my CRUSADER was purely coincidental. Too bad I can't consider the elaborate work constructive and enjoy the fruits of counterfeiters lurking in the shadows. The magic of automation is truly wonderful, but when it comes to a personal journal I prefer to do it myself. Please, no h elp from the counterfeiters. I can create enough enemies all by myself to last me a lifetime.
